<TEXT>I DO NOT want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

For once will you please take those of us who are single parents, trying to make ends meet, in mind. I'm a single mom with 6 kids and all this horrible U.S. is doing for me is making sure I have absolutely no money to live on. Money begets Money. Therefore I am up a creek. Go after the BIG guy for once! Because I am SICK and Tired of getting raped by you BIG guys.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Bernadette Woznicki
